The screenshot displays the CAT Telecom User Management interface. At the top left, the CAT Telecom logo is visible. The user ID 6621077001 is shown, along with a language dropdown set to English and links for Help and Logout. The main header on the right reads "User Management". A red "SETTINGS" button is in the top left corner. The left sidebar contains "Basic Settings" and "Features" sections. Under "Features", a "Lines" section lists a line with ID 6621077001. A central panel offers "Open", "New", and "Delete" actions. The main content area shows a "6621077001" header with a "Reload" button. Below this, a "Call Forwarding" section is expanded to show "Call Forwarding Unconditional (CFV)" settings. The "Activated" checkbox is checked. Other settings include "Forwarding Number" (empty), "Activation" (By phone and over the Internet), "Number Modification" (By phone and over the Internet), "Courtesy Call Settings" (None), and "Notify Calling Party" (None). There are also checkboxes for "Notification Tone on Call Forwarding", "Notification Tone on occurred Call Forwarding", and "Accept Subscription", all of which are unchecked. At the bottom, a "Remote Activation of Call Forwarding (RACF)" section is partially visible. A blue banner at the top of the main content area displays the message "i Operation was successful". A speech bubble points to this message with the text "9. หลังจากกด SAVE จะขึ้นคำว่า Operation was successful". "Save" and "Reset" buttons are located above the settings area.
